

Teaching Transparently

These training sessions are offered by Iowa's Area Education Agencies; Iowa educators and administrators are welcome to attend in any of these locations.

Through these sessions, model and mentor teachers will have opportunities to enhance their practice through a series of authentic teaching experiences. These experiences will allow educators a chance to define their role, learn to discern instructional moves through observation and practice, construct a personal growth plan and use reflection as a means for making teaching transparent.

Attendees will:

- Define and embody the role of the model or mentor teacher.
- Learn to observe instruction in order to practice and discuss deliberate pedagogy.
- Create and implement a personal growth plan to be used as the basis for learning to teach transparently.
- Use careful reflective practices to enhance systematic progress.
